PRESS RELEASE

Urban Security 2026 – Technologies, systems, products, solutions and services for security and safety professionals

The event will take place at Bologna Exhibition Centre from 7 to 9 October 2026

Cormano, 24 November 2025 – **Urban Security 2026** has been officially unveiled: the new event dedicated to technologies, systems, products, solutions and services for **security** and **safety** professionals will be held **from 7 to 9 October 2026** at **Bologna Exhibition Centre (Italy)**.

Organized by **A151 srl**, the exhibition will offer the opportunity to discover and test next-generation tools, equipment, and technologies for public and private security and protection services in Italy and across the Mediterranean area. It will feature the participation of security managers, officials, forensic laboratories, law enforcement agencies, armed forces, government agencies, legal experts, trainers, local and state authorities, and companies offering legal, security, and investigation services.

Urban Security 2026 presents itself in an innovative way as an event representing a rapidly developing market both nationally and internationally. In addition to the exhibition area, the event also includes a **rich conference program** featuring qualified speakers from companies, associations, universities, and institutions.

Urban Security 2026 will take place within **Urban Tech 2026 – The Urban Technology Show**, the new event dedicated to e-mobility, traffic, commuting, security, TLC & data, and environment. It is the **first European exhibition hub** focused on the **intelligent management of cities**, urban agglomerations, urban communities, and territories, addressing and finding solutions for mobility, traffic, commuting, infrastructure, security, innovation, digitalization, telecommunications, connectivity, resources, energy, sustainability, and environment.

Urban Tech 2026 consists of various international trade shows and conferences, including, in addition to Urban Security 2026:

- **Wireless & Towers 2026**, transmission towers, infrastructures, technologies, and equipment for telecommunications, broadcasting, satcom, security sectors, smart cities, and territory;
- **Traffic 2026**, traffic management, infrastructures, safety and control systems, smart roads and smart cities, intelligent mobility, parking solutions, public and collective transport;
- **E-Charge 2026**, industry and market of EV charging, charging stations and pillars, technologies, infrastructures, and services;

Professionals

- **E-Tech Europe 2026**, advanced batteries and innovative technologies for the production and recycling of electric and hybrid vehicles, for the automotive, transport, and industrial sectors.

At the same time, the following events will take place:

- **Asphaltica 2026**, road paving and road construction, organized by Siteb;
- **Saie 2026**, building and construction, organized by Senaf.

“In a period in which security issues are increasingly pressing at all levels, requiring the use of technologically advanced tools to effectively address new challenges, Urban Security 2026 will serve as a key event for professionals seeking updates and expertise,” says **Marco Pinetti**, Director of A151 srl. “It will also enable strong synergies with the other trade shows taking place simultaneously, in order to find integrated solutions for the intelligent management of cities.”
